Ser. No. 09/990,837

AMENDMENTS TO THE CLAIMS

Please amend the claims of the present application as set forth below.

In accordance with the PTO's revised amendment format, a detailed listing of all claims has been provided. A status identifier is provided for each claim in a parenthetical expression following each claim number. Changes to the claims are shown by strikethrough (for deleted matter) or underlining (for added matter).

Claim History Summary:

10 Claims 1-32 were originally filed.

Claims 1-32 were rejected (OA 1/4/05).

Claims 1 and 21 were amended, claims 25-32 were cancelled, claim 33 was added and claims 1-24 and 33 were pending (Response 4/1/05).

15 Claims 1, 4-7, 9-13 and 17-24 were rejected, claims 2, 3, 8, 14 and 15 were objected to and claim 33 allowed (OA 7/12/05).

Claim Summary of Present Response:

Claims 1-24 and 33 are pending.

9 (original). The method of claim 1 wherein the executing includes searching a memory associated with a camera.

10 (original). The method of claim 1 wherein the executing includes searching
5 for an image file.

11 (original). The method of claim 1 wherein the executing includes invoking a request for a user's input.

10 12 (original). A computer-readable medium containing a computer program that is storable in memory and executable by a processor to configure a server to generate the applet of the method of claim 1.

13 (original). A method for configuring a server comprising:
15 communicating a file from a client to the server, the file containing information;
generating an applet based on the information;
communicating the applet from the server to the client;
executing the applet on the client to thereby cause searching for an
20 additional file;
communicating the additional file to the server; and
configuring the server using at least the additional file.

14 (original). The method of claim 13 wherein the file comprises an INF file.
25

15 (original). The method of claim 14 wherein the INF file comprises a printer INF file.

16 (original). The method of claim 13 wherein the server comprises a printer
30 server.

Response to OA of July 12, 2005**Page 6 of 13****Ser. No. 09/990,837**

17 (original). The method of claim 13 wherein the applet comprises a security signature.

18 (original). The method of claim 13 wherein the information comprises file
5 names.

19 (original). The method of claim 13 wherein the information comprises a file name associated with the additional file.

10 20 (original). The method of claim 13 wherein the executing includes searching a CD in a CD-ROM drive.

21 (previously presented). A method for configuring a Web server comprising:
communicating a file from a client to the server, the file containing
15 information;
generating an applet based on the information;
communicating the applet from the server to the client;
executing the applet on the client to thereby cause searching by the
client for an additional file;
20 communicating the additional file to the server; and
configuring the Web server using at least the additional file.

22 (original). The method of claim 21 wherein the additional file comprises an image file.
25

23 (original). The method of claim 21 wherein the configuring comprises associating the additional file with a Web page.

24 (original). The method of claim 21 wherein the additional file comprises an
30 image file associated with a Web page hosted by the Web server.
